

## RIPPER FEAR KEEPS CHILDREN INDOORS

New York Streets Deserted at Dusk—Escorts to and From School.

NEW YORK, May 12.—The failure of the "ripper" murderer of Charles Murray and Leonard Cohen to report his crime on Monday night, as he threatened in a letter a week ago to the mother of the Murray boy, brought an increase of police vigilance yesterday. Scores of policemen were taken out of uniform for detective duty and a repeated general warning was sent to all stations. Mothers all over the city, and even in Newark and Jersey City, still are fearful that the fate of the "ripper's" victims may overtake their own children. Few youngsters under twelve years of age went to and from school without proper protection. At sundown the streets of the East Side, in the vicinity of the two murders, were clear of youngsters.

Inspector Faurot has the impression that the slayer, believing his unfulfilled threat has thrown the police off the guard, may seek to commit another murder within the next few days.

Circulars were sent out yesterday to all penal institutions, asylums, sanitariums, and places where perversities, degenerates or insane have been inclosed. These circulars give the similes of the threatening letters written to Mrs. Cohen and Mrs. Murray over the signature of "Jack the Ripper." They give descriptions, so far as the police have been able to obtain it, of the men who fled from the hallway of 250 First Avenue a few minutes after Charles Murray was murdered.

So that every channel of information may be covered, copies of these circulars have been sent to all banks for comparison with the filed handwritings of clients. It has been Inspector Faurot's belief from the beginning of the mystery that the "ripper" may come from any walk of life.

The "ripper" scare has spread to New Jersey. Yesterday a demented woman in the neighborhood of Hoboken, started a panic among the children during the noon recess. Some one shouted that she was the "ripper," and at once hundreds of children ran to their homes. Others fled within the schoolroom. Charles Sherlock, principal of the school, and his teachers' corps had a hard time quieting the fear of the children.

## SUNDAY WOULD FREE THAW AND LEO FRANK

Evangelist Declares He Would Give "Square Deal" If He Were Governor.

PATERSON, N. J., May 12.—Billy Sunday in speaking to 2,500 persons who crowded the tabernacle here last night, deviated from his subject long enough to go on record as a supporter of Leo Frank, under sentence of death in Atlanta, for the murder of Mary Phagan, and for a "square deal" for Harry K. Thaw.

"Let me say right here," Billy suddenly exclaimed, while telling his hearers what to do to be a good citizen, "I have been fighting to the very last minute and I don't think they ought to put a rope around his neck. If I was governor of Georgia, I would let him go tomorrow, a free man. And, furthermore, if I was governor of New York, I would let Harry Thaw go tomorrow, a free man. I would give a square deal to both of them. Things would be different in these cases if they put things up to me."

Billy also launched an attack against those in Paterson who have been circulating stories about his meeting "for women only" next week. "None of the old fogies need come around here," he said, "because I'm not going to say anything out of the way. I'll give \$10,000 to any one who can show me a person who has been circulating these stories. I'm waiting for a chance to cram something down their throats."

Billy also announced from the platform that a movie concern had asked him to pose, offering him \$10,000 as a salary. "They call me a greater," he said, "but I refused to accept the offer. I wouldn't do it for ten million dollars a year."

## SUFFRAGISTS PUT TO ROUT BY MICE

Street Faker's Performers Prove Fight For Ballot Has Not Changed Woman's Instincts.

NEW YORK, May 12.—It took a troop of trained white mice and a street faker less than ten seconds to refute the claim that the fight for the ballot is destroying the gentler nature of woman.

The usual relay of pretty workers of the woman suffrage party were in front of the party headquarters selling the Voter.

At about 5 o'clock the street faker and his mice, "guaranteed to tell your fortune, past and future, for a dime," came along. He spread his paraphernalia, mice and all, on the sidewalk in front of the suffrage headquarters.

A series of agonizing shrieks rose above the noise of the street traffic. Copies of the Voter were hastily dropped, and there was a rush into headquarters.

A few moments later the yellow hangings were surreptitiously drawn back, and four scared girls, all followers of "The Cause," peered cautiously out the window.

Finally the street faker gathered up his mice, remarked "business is bad," and marched on to the next stand.

## Knights of Columbus Elect State Officers

Plans under way for the construction of a structure suitable to the needs of the Knights of Columbus, were discussed in the annual report of William F. Normoy, State deputy of the Knights of Columbus, at the annual convention of the State council here last night.

The order hoped, he said, to finance a modern structure suitable to the Knights and worthy of the Capital city. Mr. Normoy was re-elected State deputy. Robert E. McNamara, secretary; Martin J. McNamara, treasurer; Vincent A. Sheehy, associate; and Redmond De Vane, warden. State Deputy Normoy and Past State Deputy Harrington were named delegates to the supreme council in Seattle August 3-5. Reports of the officers showed that the membership in the District had grown to 2,500 in the past eighteen years ago, to 2,500 at the present time.

## SEWING MACHINES All Makes Repaired.

Work Absolutely Guaranteed. Drop postal for our auto to call. We also carry in stock at all times extra parts for all makes sewing machines.

## 48 GERMAN VESSELS LIE IN U. S. PORTS

Steamships Worth Millions Tied to Docks in Atlantic Coast Harbors.

PHILADELPHIA, May 12.—There are forty-eight German steamships, worth many millions of dollars, now interned in the various ports along the Atlantic coast of the United States. Their gross register is about 417,238 tons, and the average age of the boats is eleven and a half years.

In New York are twenty-nine vessels, in Philadelphia, four; Boston, seven; Baltimore, three; Newport News, two, and New Orleans, three.

In this port, as in others along the coast, extra guards have been placed by the police authorities to protect the interned ships from possible dangers. The captains of the ships express their entire confidence in the ability of their crews to protect the property of the steamship companies, however.

It has been rumored that the Germans, in the event of hostilities between this country and their own, are prepared at a moment's notice to disable the machinery of their vessels, and perhaps destroy them at their docks.

## Colored Man Snatches Purse at the Capitol

Samuel R. Kelly, of 119 Third Street, northeast, complained to the police today that a purse containing \$50 and three railroad passes had been snatched from him by a colored man while walking through the Capitol grounds early today.

## PRESIDENT PRAISES HIGH SCHOOL CADETS

Rooters from various schools today are busily discussing the showings made by their favorite companies at the annual review and dress parade on the White Lot yesterday.

Headed by the United States Marine Band, the regiment, made up of eleven companies, passed in review before President Wilson at 5:30 o'clock. After the review, the President summoned Col. Gilbert Church Clark, of Eastern, and said:

"You have a fine body of young men there. Their drill and appearance are excellent. Approve them."

The President was escorted to a place on the Ellipse by Henry P. Blair, president of the Board of Education, and Col. W. W. Harts, his military aide. Among the spectators were Major Raymond Pullman, formerly a captain of cadets, and Bryce Claeggett, formerly colonel of the regiment who now "covers" the White House news for a press association.

Superintendent Thurston watched the drill, as did Mrs. Edith Kingman Kern, a member of the Board of Education, and S. E. Kramer, assistant superintendent of schools, who had arranged the details, in conjunction with Colonel McCathran, their military instructor.

As the cadets marched by the President, the Marine Band played Sousa's "High School Cadet March," dedicated by the composer to the Washington high school regiment. The President brought as his guests his niece, Mrs. Anna Cochran, and her daughter, Anna.

Followers of cadet matters assert that this year's regiment was better drilled than in any previous year.

## Unitarians to Hear Lecture on Chinese

Henry D. Hubbard, of the Bureau of Standards, will speak on the Chinese language, and musical numbers will be given by Miss Todd and Messrs. Zebay and Thompson, at the meeting of the Unitarian Club at the Unitarian Church tonight. Those present will be received by the Rev. and Mrs. U. G. H. Pierce, Mr. and Mrs. H. G. Bush-Brown, and Mr. and Mrs. Grosvenor Dawe.

## Standard Remedy For Many Homes

Indigestion and constipation are two conditions closely related and the cause of much physical suffering.

The tendency to indulge one's appetite is general, so that most people suffer at some time or another from rebellion of the overtaxed organs of digestion and elimination.

A simple, pleasantly effective remedy that will quickly relieve the congestion of poisonous waste and restore regularity, is the combination of simple laxative herbs with pepsin, sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. This is a mild, pleasant laxative, tonic and digestant, absolutely free from opiates or narcotic drugs and has been the standard household remedy in countless homes for many years. A free trial bottle can be obtained by writing to Dr. W. B. Caldwell, 432 Washington St., Monticello, Ill.

## Try Skin Absorption Instead of Cosmetics

The constant use of rouge and powder invites a congested, roughened condition of the skin, eruptions, enlarged pores, blackheads, and wrinkles. If you've learned this from experience, suppose you quit cosmetics and try the following:

Ask your druggist for an ounce of ordinary mercurized wax and begin using this tonight. Apply like cold cream, washing it off in the morning. Keep this up for a week or two. The wax will literally absorb the coarse, colorless or bluish tinted skin, but so gradually as not to discomfort you at all. Just as gradually, a healthy, velvety, naturally tinted under-skin comes to the surface. And mercurized wax becomes your everlasting friend.

For those wrinkles and large pores, make a face bath by dissolving an ounce of powdered sassailla in a half pint water. Wash with this remarkable astringent and tonic properties and beneficial results come quickly.—ADVL.

## PLATINUM FOUND IN U. S. FOR FIRST TIME

Palladium, Also Worth Twice as Much as Gold, Discovered in Same Mine.

Platinum and palladium, two of the most valuable of all minerals, each of them worth twice as much as gold, have been discovered in Nevada.

The principal find, according to experts of the Geological Survey, was at the Boss mine, in the Yellow Pine mining district, Clark county. The ore deposit on the Boss claim was located thirty years ago for copper, the presence of which is plainly indicated by chrysocolla and other oxidized copper minerals. In the '90s a leaching plant was built at Good Springs, twelve miles from the mine, and an attempt was made to treat the oxidized copper ore, but the process proved a failure.

Not until recently was the gold and platinum contents of the ore recognized. This was apparently due to the fact that much of the gold is very finely divided and cannot be obtaining by panning.

## Alexander Hamilton—"Father of American Credit"

DANIEL WEBSTER says of Hamilton: "He smote the rock of National resources and abundant streams of revenue gushed forth; he touched the dead corpse of public credit and it sprang upon its feet."

No man did more to build the Constitution of the United States than did Hamilton. He took a prominent part in every debate, and worked indefatigably on all the important committees. His genius, individuality and daring foresight are indelibly stamped upon every clause of our National Law—the law under which Americans are guaranteed for all time Religious, Commercial and Personal Liberty. During Hamilton's lifetime he used his great influence to encourage and protect the brewing industry. Among all the Fathers of the Republic none knew better than he that honestly-brewed barley-malt beers make for true temperance. This American Colossus, who was second only to Washington in the service rendered to his country, drank good beer all his days. We know of no one who has yet dared declare that it injured him in any way. Under the tenets of the Constitution, which Hamilton did so much to make a fact, Anheuser-Busch 58 years ago launched their great institution. During these years they have honestly brewed honest beers. To-day 7500 people are daily required to meet the public demand. Their world-famed brand BUDWEISER because of its quality, purity, mildness and exquisite flavor, exceeds the sale of any other beer by millions of bottles.

Visitors to St. Louis are courteously invited to inspect our plant—covers 442 acres.

ANHEUSER-BUSCH • ST. LOUIS, U.S.A.

## Budweiser Means Moderation

## Fate of Athletics at G.W.U. May Hang on Vote

On the vote being taken among the students of the George Washington University today hangs the fate of athletics at that institution. Ballots have been placed in all the class rooms and instructors have been asked to make announcements concerning the proposition.

A similar referendum vote was taken about a month ago, but because only one-third of the student body took ballots, those interested in athletics decided to have the second referendum taken. The question at issue is: Shall the students of the institution be taxed to support athletics?

## 201 English Vessels Sunk Since War Began

LONDON, May 12.—Two hundred and one British vessels of all classes have been sunk since the war began, with the loss of approximately 1,550 lives, it was announced in parliament.

## Advise Lime For Tuberculosis

According to the Journal of the American Medical Association (July 27, 1912, Page 388), Dr. C. F. Dian, of Minneapolis, holds that a "deficiency of calcium" (lime) is responsible for the physical conditions which lead to tuberculosis, "and the therapy he advocates rests on this basis."

One of the reasons for the widespread success of Eckman's Alternative in the treatment of tuberculosis and chronic throat and bronchial troubles is its ability to supply this deficiency.

It contains a lime salt in such form and so combined with other remedial agents as to be easily assimilated by the average person. There are no record many cases in which it seems to have effected complete and lasting betterment.

However, we make no exaggerated claims for Eckman's Alternative. We prefer that it be tried on the same basis on which any other prescription, and we believe it will help, for IT HAS HELPED in many cases.

It contains no opiates, narcotics or habit-forming drugs. Therefore, it is safe to take. If your druggist is out of it, he will order, or you can get it direct.

Eckman Laboratory, Philadelphia. Sold by O'Donnell's Drug Stores, Washington, D. C.—Advt.

## Resinol heals itching eczema

Resinol Ointment, with Resinol Soap, usually stops itching *instantly*. It quickly and easily heals the most distressing cases of eczema, rash, ringworm or similar tormenting skin or scalp eruption, when other treatments have proven only a waste of time and money.

Physicians have prescribed the Resinol treatment for 20 years. Resinol Ointment is an ideal household remedy for sores, burns, cuts, chafes, etc. Every druggist sells Resinol Ointment and Resinol Soap. Contains no harsh or injurious drugs.
